

# **Herdly Official Regulation Guide**

---

# Cosmetics and Hygiene

For cosmetics, we determine whether brands are cruelty-free or vegan. Cruelty-free means that the product was developed without any tests on animals, while vegan means that the product does not include any animal-derived ingredients. These same standards are used to inspect hygiene brands.

# **Livestock**

Our data is sourced from the United States Department of agriculture and analyzes their information on livestock handling. We identify several regulations including 9 Code of Federal Regulations (CFR) 313.2, 9 CFR 316.2, etc., These various regulations cover the unloading of livestock, treatment of disabled livestock, electric treatment of livestock, firearms in regards to livestock, and much more. Our algorithms work to find the best brands for consumers based on the regulations they prefer to ensure are met.

## **Regulations Specifics:**

- 9 CFR 313.1 – This regulation states that livestock pens, driveways, and ramps shall be maintained in good repair
